Mechanism of Injury area

Downward triage option

Contamination Strip must be removed before triage can begin ensuring DECON is either performed or ruled out

BACK

50 per pack  
20 packs per case  
(1000 tags per case)

The New EMT3™ All Risk® Triage Tags are optimized for use in the EMT3™ (Enhanced Method of Triage, Treatment, & Transport) System.

New Features Include:

- Large, shortened quick reference tag number for easier, more accurate radio transmission
- Larger, full accountability Transportation Receipt
- Glasgow Coma Scale
- Blast Injury Indicator
- Mechanism of Injury area
- Downward Triage capability
- Contamination Strip now located at the bottom of the tag to ensure that DECON is either performed or ruled out prior to triage.

Standard Features:

- Waterproof, Bloodproof
- Military Standard Bar Coding for Tracking & Personal Property Identification
- Evidence Identification
- Presence of Contamination
- Primary/Secondary Decon
- S.T.A.R.T. Triage Prompter

All Risk® Decontamination Medical Waterproof Triage Tags are engineered for today's emergency first responder. These DMS Tags are endorsed by California Metropolitan Medical Response System (MMRS) cities.
