

ENHANCE YOUR PERFORMANCE WITH TORQ GENERAL PURPOSE, HANDS-ENABLING TACTICAL LIGHTS

ENHANCED CAPABILITIES

It's not what our lights can do. It's what you can do with our lights. First-Light USA products are designed first for military, law enforcement and other professionals. This specialized approach allows us to design application-specific solutions that precisely fit the demands of your job.

LIGHTS FOR MILITARY PROFESSIONALS

We produce lighting tools that **exceed the US Military's 'Buy American Act' standards** and are **Team Soldier Certified**.

First-Light USA products are designed, manufactured and assembled in the USA primarily using domestic components.

Providing a full spectrum of functionality, First-Light USA's TORQ family of lights is designed for the military operator seeking performance and durability in a general-purpose lighting tool.

Utilizing two-AA batteries, TORQ lights have 150 lumens of light and a head that rotates 320 degrees.

Each TORQ light is constructed from proprietary polymers to handle the roughest situations. Featuring interchangeable side panels, TORQ lights can be customized with a wide range of accessories from powerful mounting magnets to belt cutters.

TORQ leverages a proven, ergonomically superior design featuring First-Light USA's patented finger loop system and mounting options for hands-free use.

TORQ lights are built for performance and usability.

First-Light USA's compact, hand-held lights are designed to give you the right light for every situation.

HANDS-ENABLED

Built for superior hand-control, the TORQ provides access to the entire control panel with just your thumb. An ergonomically designed grip allows for maximum use of your hand while still maintaining control of the light. The unique finger loop allows you to load, fire, reload and clear your weapon without releasing the light.

KITS

TORQ NV with TRS MOLLE Blade

TORQ Coyote Brown with TRS MOLLE Blade

TORQ LE with TRS Belt Mount

TACTICAL RETENTION SYSTEM (TRS) ACCESSORIES

TRS MOLLE BLADE

MOLLE Blade TRS provides mounting capabilities to MOLLE designed military and recreational clothing and equipment, providing hands-free and adjustable illumination.

TRS MAGNET MOUNT

Made of high-strength flexible magnetic material, the TRS Magnet Mount allows the TORQ to be positioned on any ferrous surface.

TRS BELT MOUNT

Holster or un-holster the TORQ on your duty belt with the TRS Belt Mount. Clip features 180° of rotation allowing the TORQ to pivot while holstered.

EXTENDED FUNCTIONALITY

PANEL SYSTEM

TORQ features interchangeable side panels that can be replaced with a dovetail attachment allowing it to be compatible with First-Light USA's wide range of accessories.
